

The Active Life Center *Grand Canyon Tour*

October 13 - 23, 2021

11 Days 10 Nights

Begin your tour experience at the Route 66 Museum, where you can see the history of one of the oldest highways in the US.

Take a ride in the Sandia Peak Tramway to see the stunning Sandia Mountains.

Visit the Ancient Petrified Forest, where many years ago a swamp once stood and where dinosaurs roamed. The forest now is a beautiful desert filled with rocks that were once trees.

Next see the Glorious Grand Canyon, where nature has eroded away land, transforming it into a beautiful canyon. Which has become one of the 7 natural wonders of the world.

Tour the engineering wonder, Hoover Dam.

See how it generates electricity for many people using the natural power of waterfalls.

Finally see the ancient Carlsbad Caverns. Descend 750 ft into the earth to see the bizarre beauty of the lime stone caves. These caves are so large that the largest cave can fit six football fields.

Explore Awe-inspiring Nature and Make Friends Along the Way!
